the Maharaja of Mysore,

B a n g a l o r e.

Sir,

With reference to Government proceedings No. L.1800-801/ Medl. 82-24-8 dated 7th September 1925, I have the honour to forward herewith for information of Government, copy of the notes of the Board of visitors, Minto Ophthalmic Hospital, Bangalore, dated 30th March 1928.

I have the honour to be,
S i r,
Your most obedient servant,

K P Puttanna Chetty

CHAIRMAN AND CONVENER.

30th March 1928.

P r e s e n t:-

Sir K. P. Puttanna Chetty,

Khan Bahadur Mahomed Abbas Khan,

Rao Sahib Channayya,

Mrs. C. B. Rama Rao.

Went round the Hospital and inspected the wards. Found everything in good order. No complaints. The want of water is greatly felt. We understand that Government have sanctioned a tube well for this Hospital as well as one for the Victoria Hospital. This class of wells do not provide an adequate supply of water for large Hospitals. They may do for dwelling houses. It is suggested that a regular well with stone revetment be excavated in a central place so as to serve both the institutions. Such a well will command an ample supply of water and ought not to cost more than 2 or 3000 Rupees. Electric pump may be used for lifting the water from this well.

3 APR. 1928

Dear Sir,

I am sending herewith a copy of the remarks made by the Board of Visitors who assembled at the Victoria Hospital on 1-4-1928, for the information of Government.

Yours sincerely,
K.P. Puttanna Chetty
Convener.

1st April 1928.

Present

Sir K.P. Puttanna Chetty.

Rao Sahib Channayya.

Mr. Chengiah Chetty.

Mr. B.K. Garudachar.

Mrs. C.B. Rama Rao.

Inspected all the wards, kitchens and stores in company with Dr. Subba Rao. Spoke to the patients. No complaints. Everything in good order. Cases for admission as inpatients are on the increase but accommodation is not available. We saw an interesting case of tumour of the breast weighing 18 lbs- the operation was successfully performed and the patient from H.E.H. the Nizam's Dominions is feeling greatly relieved and grateful. We would urge the necessity of sinking a good drinking water well in a central place to serve both the Victoria and Minto Hospitals. The tube wells sanctioned for each of these hospitals are not likely to meet the requirement of large institutions like these, unless they are of large dimensions and the springs are plentiful.

Sd/- K.P. Puttanna Chetty,
Convener.

Senior Surgeon with the Government of
His Highness the Maharaja of Mysore.

To

The General Secretary
to the Government of His Highness
the Maharaja of Mysore, Bangalore.

Sir,

In forwarding the (marginally noted) extract from the remarks, by the Board of Visitors of the Victoria Hospital, Bangalore, on the 1st April 1928, in the matter of sinking a good drinking water well in a central place, to serve both the Victoria and the Minto Ophthalmic Hospitals, in modification of the previous suggestion of having a separate tube well for each institution (vide Government Order No. G.10792-4/Med.140-26-26, dated 21st May 1928), I have the honour to state that the question is a purely technical one beyond the scope of my department. I have therefore referred the matter to the Chief Engineer for such action as would, in his opinion, best serve the purpose in view, viz., an ample supply of water to both the institutions and to request that orders of Government in the matter may also be kindly obtained, at an early date.

* * * * * * * * We would urge the necessity of sinking a good drinking water well in a central place to serve both the Victoria and Minto Hospitals. The tube wells sanctioned for each of these hospitals are not likely to meet the requirements of large institutions like these, unless they are of large dimensions and the springs are plentiful.

I have the honour to be,
Sir,
Your most obedient servant,

B. Mahomed Usmon
Senior Surgeon.

From

Dr. B. Mahomed Usmon, L.M.S.,
Senior Surgeon in Mysore, Bangalore.

To

The General Secretary
to the Government of His Highness
the Maharaja of Mysore, Bangalore.

Sir,

With reference to your letter No. G. 11596/Med. 22-27-19, dated 16th April 1928, calling for my views in regard to the construction of a regular drinking water well in a central place so as to serve both the Minto Ophthalmic and the Victoria Hospitals, I have the honour to invite attention to my letter No.C.2531-2, dated 12th April 1928, in the matter, and to state that I am agreeable to the opinion of the Board of Visitors, as a drinking water well in a central place, with provision of an electric motor pump will serve the great demands of both the big institutions far better than a tube well for each institution. The well may be ordered to be constructed near the stables of the Victoria Hospital as will serve both the institutions. I request that orders of Government in the matter may be kindly obtained and necessary instructions issued to the Chief Engineer of Mysore, at an early date.

I have the honour to be,

Sir,

Your most obedient servant,

Senior Surgeon.
